## SCALE★TEC

REAP™ HARVEST INVENTORY

ADVANCED TECHNOLOGY.
REAL WORLD SIMPLICITY.

AUTOMATICALLY RECORD EVERY LOAD

Scale-Tec's expandable harvest solutions provide the reliable technology and practical functionality you need to automatically record every grain cart load with exceptional accuracy. Our customizable system works with the scale components you already have to take the work out of data collection and eliminate human error.

AN ALL-AROUND BETTER WAY TO TRACK HARVEST DATA

› CAPTURE EVERY GRAIN CART LOAD WITH THE REAP™ APP

When paired with Scale-Tec's POINT® scale indicator, REAP accurately records and tracks your grain cart weight, truckloads, field totals and storage inventories seamlessly across multiple devices in real time. REAP automatically uploads the data to your cloud dashboard instantly — or as soon as a stable internet connection becomes available. From there you can export reports, integrate the data with a growing list of connected platforms, or keep it for your eyes only.

REAP™ App for iOS

Download on the App Store

REAP

Connects to your POINT® indicator via Bluetooth® wireless technology

CARTS
Remotely view Field, Truck and Destination selections on the grain cart, make corrections and see and tare grain cart scale.

FIELDS
Records and tracks field totals and creates yield total from an unlimited number of fields and locations.

TRUCKS
Monitors truckloads from the field and reconciles truckloads to co-op and elevator records.

OPERATORS
An unlimited number of operators can be added to the app for accurate tracking.

DESTINATIONS
Tracks inventory for on-farm storage or for deliveries to co-ops or elevators.

TWO CONVENIENT OPTIONS FOR AUTOMATIC DATA COLLECTION

ENABLE THE POWERUP™ FEATURE

FOR USE WITH AN ISOBUS CONNECTION

ADD THE PROX™ HARVEST SENSOR

FOR USE WITH OTHER CONNECTION TYPES

OR

> BUILT IN ACCURACY

Your POINT scale indicator is already equipped to automatically record grain cart loads to your REAP account. Just connect POINT to your tractor's ISOBUS harness and enable the PowerUp feature in the mobile app*.

POINT recognizes when your PTO switch or clutch is in the on position and automatically records the weight information from each load.

Hardware Requirements:
• POINT® scale indicator
• REAP™ subscription
• ISOBUS cable
• Apple iPhone or iPad

*PowerUp automatic recording feature is available for ISOBUS-equipped John Deere, Case IH and New Holland tractors.

> LASER GUIDED DETECTION

Attach PROX to your grain cart with the extremely strong magnet and plug it into POINT. Featuring LTF laser technology, PROX detects when your cart is next to a truck and automatically triggers POINT to begin collecting data. When the load transfer is complete, the data from every load is automatically organized in your REAP account.

Hardware Requirements:
• POINT® scale indicator
• REAP™ subscription
• PROX™ harvest sensor
• Apple iPhone or iPad

Patent Pending.
